***Sudoku***

A Sudoku is a Japanese puzzle. You must enter numbers in the boxes to solve this puzzle.

There are three rules to solve these sudokus:

- Each digit may only appear once on each row from left to right.
- You may also enter each number only once in each column from top to bottom.
- In addition, each number may only appear once in the smaller squares / rectangles (with a thick border).

In this booklet there are three different sudokus (4x4, 6x6 and 9x9). Each time there are also three levels: beginner, medium, wizard.

Put your brain to work!

### 4x4: beginner
